Mr. John Haggerty, VP Manufacturing
Aubrey National, Inc.
P.O. Box 5783
Arlington, Texas 76005

Location Address: 630 106th Street, Arlington, Texas 76011

Your identification number has been changed from TXD108214461
for the following reason:

1. Numbers are site specific and a number had previously been assigned to your location. /x/
2. Two numbers were issued to you at the same location. /x /
3. Your identification number contained "T" as the third letter of the prefix and we are changing the T to a D in your identification number. / /

Your new EPA identification number is TXD000820324 and is to appear on all correspondence and manifests pertaining to your facility from this date on.

Should you have any questions concerning this identification number, please contact Doris Shields, of my staff, at (214) 655-6750.

Sincerely yours,

Henry A. Onsgard
Acting Chief
Information Management Section

Re: Texas Utilities, Dallas, Texas
EPA I.D. NO. TXD00082172

Dear Mr. Dixon:

Enclosed is a copy of the inspection report completed by Region VI during its joint inspection at Texas Utilities on August 2, 1984. The inspection revealed that this facility is no longer engaged in any hazardous waste activity.

If you disagree with our finding, please contact me at (214) 767-2850 or have your staff call Santiago Zamora at (214) 767-9825.

Sincerely yours,

William H. Taylor, Chief
Enforcement Section (6AW-HE)

Re: Xerox Corporation
EPA I.D. No. TXD000620324

Dear Mr. Dixon:

Enclosed is a copy of the inspection report completed by Region VI during its joint inspection at the Xerox Corporation refurbishing center in Arlington on October 18, 1984. The closure inspection revealed that this facility is no longer engaged in any hazardous waste activity and is no longer active.

If you disagree with our finding, please contact me at (214) 767-2850 or have your staff contact Santiago Zamora at (214) 767-9825.

Sincerely yours,

A.J.

EPA I.D. No. TXD000820324

Dear Mr. Dixon:

Enclosed is a copy of the inspection report completed by Region VI during its joint inspection at the Xerox Corporation refurbishing center in Arlington on October 18, 1984. The closure inspection revealed that this facility is no longer engaged in any hazardous waste activity and is no longer active.

If you disagree with our finding, please contact me at (214) 767-2850 or have your staff contact Santiago Zamora at (214) 767-9825.

Sincerely yours,

William H. Taylor, Chief
Enforcement Section (6AW-HE)

Attached to the closure checklist is all correspondence from the Xerox Corporation to Texas Department of Water Resources concerning closure of their refurbishing center in Arlington.

The site was inspected on October 18, 1985 by this inspector and Sandy Antoinette of TDWR. The two underground tanks had been removed (the only hazardous waste system on-site) and the area planted with grass. A sprinkler system had also been installed (after closure of the tank system Xerox has moved to another location).

Closure

See attached plan

A. Does the facility have a closure plan?

☒ Yes ☐ No

1. Does the plan include:

a. A description of how and when the facility will be partially, then finally closed?

☐ Yes ☒ No

b. An up-to-date estimate of the maximum inventory of wastes in storage and treatment at any time during the life of the facility?

☒ Yes ☐ No

c. A description of decontamination procedures for facility equipment?

☒ Yes ☐ No

d. An estimate of expected year of closure?

☒ Yes ☐ No

2. Does the plan include a schedule for final closure? If yes, does it include:

☒ Yes ☐ No

a. Time estimates for each phase of closure for each area?

☒ Yes ☐ No

b. Total time estimate for closure?

☒ Yes ☐ No

3. Using narrative explanations sheet, give a brief summary of how the facility plans to close each area of hazardous waste management; or attach a copy of the closure plan.

see attached plan

4. Does the plan address all areas of hazardous waste management?

☒ Yes ☐ No

5. Has the plan been amended as necessary to reflect changes in facility operations or design?

unknown
☐ Yes ☒ No

6. Are cost estimates available and modified as necessary? If yes, give latest cost estimate and date of adjustments.

NA
☐ Yes ☒ No

B. Have closure activities begun at the facility?

Facility has already closed
☐ Yes ☒ No

1. If yes,

a. Was the closure plan submitted to the Regional Administrator at least 180 days prior to beginning these activities?

State
☒ Yes ☐ No

b. Were all wastes treated or disposed of within 90 days of the final receipt of wastes?

☒ Yes ☐ No

If no, give explanation including waivers or extensions granted by Regional Administrator.

NA
☒ Yes ☐ No

- c. Do the actual closure activities correspond to those written in the closure plan?

☒ Yes ☐ No

Assume they did - inspected after it was closed
 If no, include narrative explanation.

2. Was closure completed within 180 days of receipt of final volume of wastes?

☒ Yes ☐ No

If no, give explanation, including waivers or extensions granted by the Regional Administrator.

NA
☒ Yes ☐ No

3. At completion, did the facility submit a certification of closure to the Regional Administrator?

☒ Yes ☐ No

State
 If yes, was it signed by both the owner/operator and an independent registered professional engineer?

☒ Yes ☐ No

Dear Sir:

Re: Xerox Corporation, Application No. 20360, Registration No. 31229,
Arlington site

We have reviewed Part A - Facility Background Information for the above referenced site and also the Affidavit of Exclusion which was recently submitted for the purpose of withdrawing the hazardous waste permit application from further consideration in accordance with the exclusion claimed.

Based on our review of Part A and the Affidavit of Exclusion, the application for a hazardous waste permit has been withdrawn. We are retaining certain portions of the Part A for incorporation into your solid waste registration file.

If I may be of further assistance, please do not hesitate to contact me.

Very truly yours,

Charles Eanes

INTEROFFICE MEMORANDUM

TO : Gary D. Schroeder, P. E., Chief,
Solid Waste and Spill Response Section
THRU :

DATE: February 23, 1984

FROM : Christopher Swan, Environmental Quality Specialist, District 4

SUBJECT: Xerox Corporation - Arlington, Texas
Registration No. 31229

Subject facility has submitted certification of closure for their underground solvent tank as reported to the writer by Kelly Meloy on February 22, 1984. A previous inspection of the facility on March 25, 1983 showed the facility to be closed and no wastes remained on-site. In the writer's opinion, this facility's status should be updated to inactive.

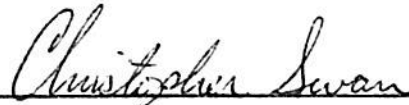

This is reported for your information.

Dear Mr. Day:

Re: Closure of Xerox Dallas Refurbishing Center
Hazardous Waste Permit Application No. 20360
Solid Waste Registration No. 31229

We have received the correspondence of September 26, 1983 from Mr. Robert M. Cutler of Lockwood Greene which certifies that the hazardous waste storage tanks were closed in accordance with the approved closure plan. In order to formally withdraw the hazardous waste permit application for the subject facility, an Affidavit of Exclusion (see enclosed form) indicating that this facility no longer stores, processes, or disposes of hazardous waste should be submitted, as noted in our previous correspondence to you dated March 10, 1983.

Should you have any questions regarding this matter, please contact Kelly Meloy of my staff at AC512/475-2041.

Sincerely,

R

Ray Henry Austin, Head
Storage and Processing Facilities Unit

Re: Xerox Corporation
Dallas Refurbishing Center
Arlington, Texas
Closure Plan
TDWR/TDH Registration No. 31229
EPA Identification No. TXD 000820324

Dear Mr. Austin:

The purpose of this letter is to certify the closure of the subject Xerox facility, which was accomplished between August 29 and September 25 of 1983. The following tasks were performed:

1. The waste solvent tank was pressure tested and certified in writing by the Associated Aviation Supply Company to hold 5 psig of air for 30 minutes to demonstrate that the tank had not leaked. The fresh solvent supply storage and piping system also held 5 psig for 30 minutes. The waste solvent piping held somewhat lower pressure for a shorter period because of its clamp-type joints, but as gravity drain (not pressurized) piping it is not likely to have leaked.
2. The waste solvent tank was found to be essentially empty of solvent but contained some sludge in solid and semi-solid form. A small quantity of the sludge was successfully vacuum-pumped out into a Browning Ferris Industries (BFI) tank truck for disposal as Class I hazardous waste. A field judgment was made that rather than attempting to dislodge the residual sludge and thereby mobilize it and add to the waste volume (with wash water and detergent), the residual sludge would remain in the tank for land disposal of the entire tank and its contents as Class I hazardous waste.

off-site (see #3.)

September 26, 1983

3. The waste solvent tank was removed from the ground by Texas Waste Recovery as was the essentially empty fresh solvent tank. The tanks appeared to be in excellent condition. The waste solvent and fresh solvent piping were also unearthed and removed, cut as required, and placed in the waste solvent tank. Both tanks were removed for disposal at the BFI secure landfill (EPA No. LAD000-618256) at Calcasieu, near Lake Charles, Louisiana.
4. The two waste sumps inside the plant and the corresponding discharge pipes just outside the north building wall were cleaned of sludge-contaminated materials and filled or plugged with concrete.

I hereby certify that the facility closure has been completed as described above.

Very truly yours,

LOCKWOOD GREENE

Dear Sir:

This letter is to confirm that our company has conducted pressure test on 2 each 8000 gallon tanks at you facility located on 106th street in Arlington, Texas. It is our understanding that one of this tanks held solvent and that the other held the solvent and waste mixture.

In accordance with Arlington city fire codes and generally accepted pressure testing methods used within the petroleum storage industry, we sealed off all tank openings and applied air pressure until the pressure guage held 5 pounds per square inch for 30 minutes. This was done to both tanks with both tanks holding 5 P.S.I. for the prescribed 30 minutes time.

This letter is to certify that after reviewing the test, it is our considered opinion that these tanks are not leaking fluids and have not been leaking in the past.

We appreciate the opportunity to work with you on this project and hope that we have the opportunity to work with again in the future.

If you have any further questions please call us in our Dallas, Texas office.

Thank you.

Sincerely,

Dan Daughdrill

Dear Mr. Day:

RE: Closure of Xerox Dallas Refurbishing Center
TDWR Solid Waste Registration No. 31229

This is in response to your correspondence of January 11, 1983, which provided the modified closure plan for the Dallas Refurbishing Center. Our evaluation indicates that your closure activities should provide reasonable assurance of effective industrial solid waste management.

Upon completion of the closure, certification should be submitted by the owner or operator of the subject facility and by an independent registered professional engineer that the tank has been closed in accordance with the approved closure plan. Also, an Affidavit of Exclusion (see enclosed form) indicating that this facility no longer stores, processes, or disposes of hazardous wastes should be submitted along with the closure certification.

Should you have any questions regarding this matter, please contact Kelly Meloy of the Solid Waste Section at AC512/475-2041.

Sincerely,

A handwritten signature in dark ink, appearing to read "C. E. Nemir".

Re.: Closure of Xerox Dallas Refurbishing Center
TDWR Solid Waste Registration No. 31229

Dear Mr. Austin:

Per your letter of November 22, 1982, we are enclosing a modified closure plan that includes the following new items:

1. The tank and underground piping will be pressure tested to certify that they do not leak.
2. The closure will be certified by a registered professional engineer with Lockwood Greene Engineers, Inc.

Also, please note that the person responsible for the preparation and implementation of this plan has changed.

We have arranged to have the "Notice of Final Facility Closure" published in the Dallas Morning News. The signed affidavits will be sent to you once we receive them from the newspaper.

Thank you for your assistance and if you have any questions, don't hesitate to call me at (716)-422-3467.

Very truly yours,

David D. Day

TEXAS DEPT. OF
WATER RESOURCES

XEROX CORPORATION
DALLAS REFURBISHING CENTER
CLOSURE PLAN

This closure plan is established for the Xerox Dallas Refurbishing Center located at 630 106th Street, Arlington, Texas. The facility's EPA Identification Number is TXD000820324 and the TDWR/TDH Registration Number is 31229. The objective of this plan is to outline the procedure to be followed when closing the hazardous waste facility so that any threats to human health or the environment are minimized or eliminated in compliance with 40 CFR 265.112 and Part 2 of the Texas Hazardous Waste Management Regulations.

It is expected that closure of this facility shall occur in 1983. Partial closure is not contemplated. The hazardous waste activity covered by this plan is waste storage in a closed tank and no other hazardous waste treatment, storage, or disposal activities are performed at the facility. Closure shall occur when the waste storage tank is no longer required either due to manufacturing process changes or cessation of operations at the facility.

The storage tank has a rated capacity of 8,000 gallons and the maximum anticipated quantity of waste in storage at any given time at the facility is 8,000 gallons.

This plan shall be submitted to the appropriate regulatory authority at least 180 days prior to the anticipated date of implementation of this plan. If closure is required for any reason prior to the end of the facility's intended operating life, this plan shall also be valid for such action.

The exact procedure to be followed for closure and a timetable for these activities is as follows:

I. Submission of Plan

It shall be the responsibility of the Xerox NAMD Environmental Engineering area to submit this plan to the appropriate Federal and/or State agencies as required and to prepare and submit any required modifications or additions to this plan.

The person responsible for preparation of this plan and overseeing the implementation of the plan is:

David D. Day
Sr. Environmental Engineer
Xerox Corporation
Xerox Square - W304
Rochester, New York 14644
(716) 422-3467

All questions and other correspondence regarding this plan should be directed to him at the above address.

2) Removal of Final Inventory of Waste

All wastes shall be removed from the storage tank as soon as possible after their generation. These wastes shall be shipped off-site for disposal at a permitted Class I Texas Waste Disposal Site capable of handling the waste material, a combination of solvent, water and detergents. A licensed waste hauler shall transport the waste and Texas Waste Shipping - Control Tickets (Manifests) shall be used for all shipments. The final volume of wastes shall be shipped off-site within 90 days of their generation.

3) Negotiate Contracts

Upon Receipt of approval of this closure plan, Xerox shall negotiate and enter into contracts with qualified firms to perform the activities outlined in the closure plan. It is anticipated that this shall be completed within forty days of receipt of the approval of the closure plan or receipt of the final volume of waste, whichever is later.

4) Tank Washing

Concurrently with the negotiation of the contract, Xerox shall wash out the piping and tank utilizing a detergent and water solution. The waste generated by this washing operation shall be handled as a hazardous waste and disposed of as outlined in Section 2, above.

5) Pressure Testing

Xerox shall retain a contractor to pressure test the tank and underground piping in order to certify that they have not leaked. The pressure test will involve applying 3 - 10 pounds of air pressure to the tank and associated piping.

6) Dismantling of Tank

As soon as possible after negotiation of contracts and tank washing, actual removal of the storage tank shall begin. All liquid shall be removed from the tank and piping to the best of the contractor's ability and disposed of as hazardous waste. The tank shall be removed in compliance with the National Fire Protection Association's Flammable and Combustion Liquids Code NFPA 30 Appendix C. This code shall be utilized even though the waste is not flammable, combustible or ignitable. All piping shall be plugged or capped at both ends. Waste residues remaining in the tank shall be removed and disposed of as hazardous waste. The storage tank shall then either be sold for reuse or scrapped. Any spillage shall be collected and disposed as hazardous waste and the excavated area shall be returned to grade and seeded. It is estimated that tank removal and cleaning will take no longer than 45 days.

7) Certifying Closure

Completion of closure shall be certified to the appropriate Federal and/or State control agencies by an independent licensed professional engineer. This certification shall be performed by:

Lockwood Greene Engineers, Inc.
2665 Villa Creek Drive
Dallas, Texas 75234
(214) 243-6303

Certification shall be submitted within ten days following completion of closure at the facility.

Attachments

- o Time Chart of Closure Activities

APPENDIX C.

ABANDONMENT OR REMOVAL
OF UNDERGROUND TANKS

C-1. Introduction.

C-11. Care is required not only in the handling and use of flammable or combustible liquids but also in abandoning tanks which have held flammable or combustible liquids. This is particularly true of underground service station tanks which are most frequently used for the storage of motor fuel and occasionally for the storage of other flammable or combustible liquids, such as crankcase drainings (which may contain some gasoline). Through carelessness or curiosity, explosions have occurred because flammable or combustible liquid tanks had not been properly conditioned before being abandoned.

C-12. In order to prevent accidents caused by improper conditioning, it is recommended that the procedures outlined below be followed when underground tanks are removed, abandoned or temporarily taken out of service.

C-13. Underground tanks taken out of service may be safeguarded or disposed of by any one of the three following means:

- (a) Placed in a "temporarily out of service" condition. Tanks should be rendered "temporarily out of service" only when it is planned that they will be returned to active service within a reasonable period or pending removal or abandonment within 90 days.
- (b) Abandoned in place, with proper safeguarding.
- (c) Removed.

C-14. In cases where tanks are either rendered "temporarily out of service" or permanently abandoned, records should be kept of tank size, location, date of abandonment, and method used for placing the abandoned tank in a safe condition.

C-15. Procedures for carrying out each of the above methods of disposing of underground tanks are described in the following sections. No cutting torch or other flame or spark producing equipment shall be used until the tank has been completely purged or otherwise rendered safe. In each case, the numbered steps given shall be carried out successively.

C-2. Rendering Tanks "Temporarily Out of Service."

C-21. Cap the fill line, gage opening, and pump suction; secure against tampering.

C-22. Leave the vent line open.

C-3. Abandoning Underground Tanks in Place.

C-31. Remove all flammable or combustible liquid from the tank and from all connecting lines.

C-32. Disconnect the suction, inlet, gage, and vent lines.

C-33. Fill the tank completely with an inert solid material. Cap remaining underground piping.

C-4. Removal of Underground Tanks.

C-41. Remove all flammable or combustible liquids from tank and from connecting lines.

C-42. Disconnect the suction, inlet, gage, and vent lines; remove sections of connecting lines which are not to be used further and cap or plug inlets, outlets, and leaks if any. After removal, the tank may be gas freed on the premises if it can be done safely at that location or may be transported to an area not accessible to the public and the gas freeing completed at that location.

C-5. Disposal of Tanks.

C-51. If a tank is to be disposed of as junk, it should be retested for flammable vapors, and, if necessary, rendered gas free. After junking and before releasing to junk dealer, a sufficient number of holes or openings should be made in it to render it unfit for further use. Standard Procedures for Cleaning or Safeguarding Small Tanks and Containers, NFPA 327, provides information on safe procedures for such operations.

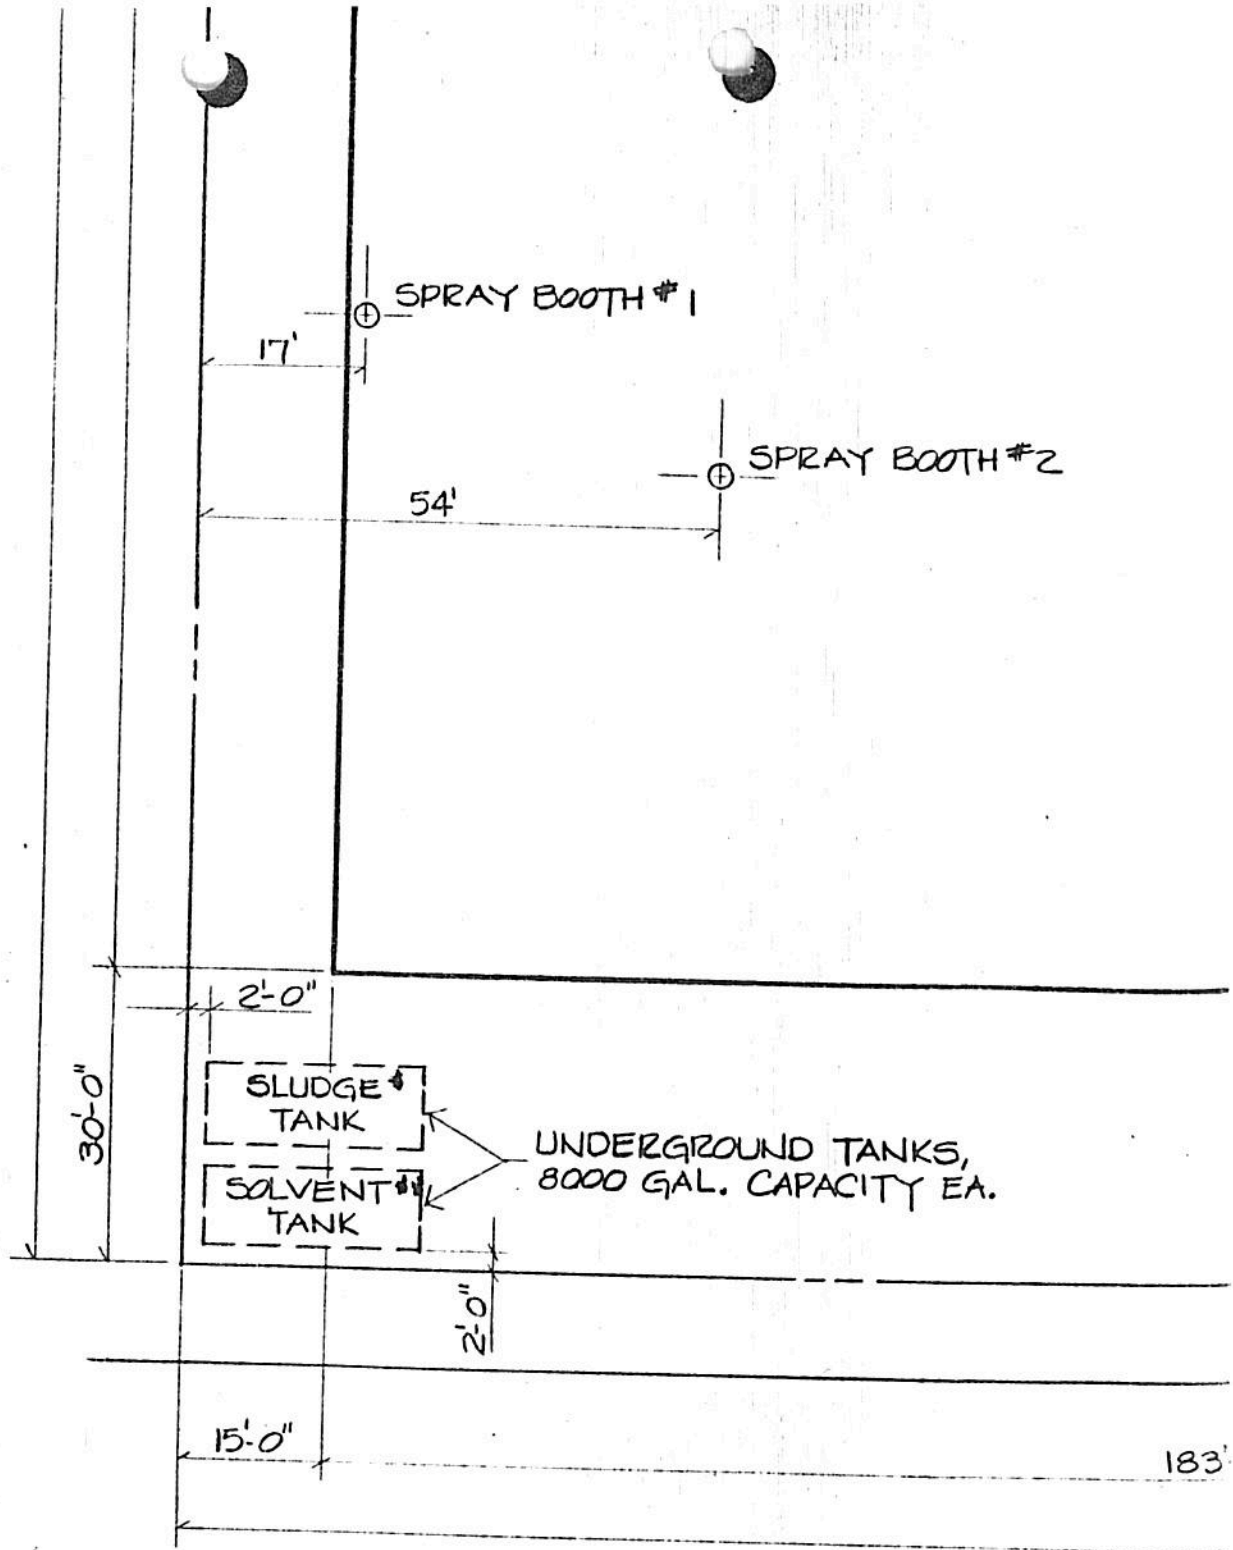

C-6. Reuse of Underground Tanks.

C-61. Used tanks which are to be reused for flammable or combustible liquid service shall meet all the requirements of this Code for the installation of underground tanks.

Dear Mr. Walrath:

RE: Closure of Xerox Dallas Refurbishing Center
TDWR\Solid Waste Registration No. 31229

This is in response to your letter of October 21, 1982, notifying the Texas Department of Water Resources of your planned closure of a hazardous waste storage tank.

Pursuant to Texas Administrative Code (TAC) 335.213(d), Xerox is required to:

1. Publish the enclosed notice in its entirety, at your expense, in a newspaper of paid circulation which is regularly published or circulated in the county of the geographical location of the facility;
2. Mail to the undersigned, immediately upon publication, the original sworn affidavits from the newspapers giving the date on which the notice was published, using the enclosed affidavit forms; and
3. Send a clipping of the published notices with the affidavits.

The date of publication should be as soon as possible after the date of this letter. Should you fail to have the notice published according to the above instructions, please notify the Department immediately. The notice includes the information which the Department believes is necessary to satisfy the requirements of TAC Section 335.213(d). Please read it carefully and notify us immediately if it contains any errors or omissions.

RECEIVED
DIST 4

DEC 01 '82

TEXAS DEPT. OF
WATER RESOURCE

Our review of your closure plan for the storage tank has revealed the following deficiencies:

1. Final closure activities for an underground storage tank should include procedures to determine if the tank or any underground piping or fixtures have leaked; and

Mr. Jess R. Walrath, Jr.

Page 2

November 22, 1982

2. Certification of closure required by TAC Section 335.216 should be performed by an independent (i.e., not employed by Xerox Corp.) registered professional engineer.

We therefore request you modify the closure plan to correct these deficiencies and re-submit the plan within 30 days.

Should you have any questions regarding this matter, please contact Steve Strohl at AC512/475-2041.

Sincerely,

Ray Henry Austin, Head
Storage and Processing Facilities Unit

Notice of Final Facility Closure

Pursuant to Texas Administrative Code Section 335.213(d), the Executive Director of the Texas Department of Water Resources hereby gives notice of the receipt on October 26, 1982 of a closure plan for the closure of the hazardous waste storage facility operated by Xerox. The facility is located at 630 106th Street in Arlington, Tarrant County, Texas. Pursuant to the closure plan submitted, Xerox intends to terminate generation of hazardous waste, close the storage tank and remove all hazardous wastes.

The purpose of this notice is to give members of the public the opportunity to submit written comments on the closure plan and request modification of the plan. Any comments must be submitted within 30 days of the date of publication of this notice to Steve Strohl, Solid Waste Section, Texas Department of Water Resources, P.O. Box 13087, Capitol Station, Austin, Texas 78711. Pursuant to Rule 335.213(d), the Executive Director is required to approve, modify, or disapprove the plan within 90 days of receipt. Copies of the closure plan are open for public inspection at the central office of the Texas Department of Water Resources, 1700 North Congress Avenue, Austin, Texas 78711, and at the Department's District 4 Office, 203 James Collins Blvd., Duncanville, Texas 75116.

In addition, pursuant to TAC Section 335.213(d), the Executive Director may, in response to a request or at his own discretion, hold a public hearing on the closure plan whenever such a hearing might clarify one or more issues concerning the plan. Any request for a public hearing should be submitted within 10 days of the date of publication of this notice to Steve Strohl, Solid Waste Section, Texas Department of Water Resources, P. O. Box 13087, Capitol Station, Austin, Texas 78711; telephone AC 512/475-2041.

Issued in Austin, Texas on November 24, 1982.

Re: EPA - TDWR Joint Inspection, Xerox Corporation, EPA ID No. TXD0000820324

Dear Mr. Taylor:

By your letter of October 30, 1984, we received notice of the results of the referenced joint inspection. Please note that the findings reported by this agency may not agree with those of the EPA reviewer, as more extensive information about the facility may be available from our files.

Our official findings will be entered into the EPA Hazardous Waste Data Management System as required by our fiscal year 1985 RCRA grant and are available for your review. If you have any problems regarding these findings our files are available for inspection. You may wish to request additional information from our records during the mid-year or end-of-year review of the TDWR RCRA program.

A copy of the findings of the EPA reviewer will be forwarded to the TDWR District 4 office. Should you have any further questions concerning the report of the inspection, please contact Ms. Susan Ferguson at 512/475-5516.

Sincerely,

Re: Xerox Corporation, Application No. 20360, Registration No. 31229,
Arlington site

We have reviewed Part A - Facility Background Information for the above referenced site and also the Affidavit of Exclusion which was recently submitted for the purpose of withdrawing the hazardous waste permit application from further consideration in accordance with the exclusion claimed.

Based on our review of Part A and the Affidavit of Exclusion, the application for a hazardous waste permit has been withdrawn. We are retaining certain portions of the Part A for incorporation into your solid waste registration file.

If I may be of further assistance, please do not hesitate to contact me.

Very truly yours,

Dear Mr. Howard:

Thank you for your recent submittal of the required documentation to show compliance with the Resource Conservation and Recovery Act (RCRA) financial regulations, 40 CFR 265, Subpart H, as amended on April 7, 1982, 47 FR 16032, and April 16, 1982, 47 FR 16544. The Environmental Protection Agency (EPA) Region VI has authorized the States of Arkansas, Louisiana, Oklahoma, and Texas to operate separate RCRA programs in lieu of the EPA program. Appropriate contacts in these states are:

Mr. Don Hensch
 Oklahoma State Department of Health
 Hazardous Waste Division
 P. O. Box 53551
 Oklahoma City, Oklahoma 73152

Mr. Robert Brydson
 Texas Department of Water Resources
 P. O. Box 13087, Capitol Station
 Austin, Texas 78711

Therefore, it is necessary for you to provide documentation directly to each of these states to comply with their laws and regulations.

If you have any questions, please call Henry Onsgard at (214) 767-8941 or me at (214) 767-9730.

Sincerely yours,

Gerald Fontenot, Chief

Dallas, Texas 75201

Dear Sir:

I am the Senior Vice President, Chief Financial Officer of Xerox Corporation. This letter is in support of the use of the financial test to demonstrate financial responsibility for liability coverage and closure and/or post-closure as specified in Subpart H of 40 CFR Parts 264 and 265.

The owner or operator identified above is the owner or operator of the following facilities for which liability coverage is being demonstrated through the financial test specified in Subpart H of 40 CFR Parts 264 and 265: (Joseph C. Wilson Center for Technology, 800 Phillips Rd., Webster, NY 14580, EPA I.D.: NYD002211324; Washington CRC, 6800 Industrial Park, Springfield, VA 22151, EPA I.D.: VAD000739904; Atlanta CRC 36077 Fulton Industrial Blvd., Atlanta, GA 30336, EPA I.D.: GAD010103232; Oakbrook CRC, 1808 Swift Drive, Oakbrook, IL 60521, EPA I.D.: ILD074411646; Oakbrook PR&S, 100 Windsor Drive, Oakbrook, IL 60521, EPA I.D.: ILD096786009; Oklahoma Manufacturing Plant, 100 N. Mustang Rd., Oklahoma City, OK 73126, EPA I.D.: OKD079986568; Dallas CRC, 630 106th St., Arlington TX 76010, EPA I.D.: TXD000820324; Irvine CRC, 18691 Jamboree Blvd., Irvine, CA 92715, EPA I.D.: CAD058231598; Henrietta Plant, 1350 Jefferson Road, Henrietta, NY 14623, EPA I.D.: NYD041292509).

1. The owner or operator identified above owns or operates the following facilities of which financial assurance for closure or post-closure care is demonstrated through the financial test specified in Subpart H of 40 CFR Parts 264 and 265. The current closure and/or post-closure cost estimates covered by the test are shown for each facility: (Joseph C. Wilson Center for Technology, 800 Phillips Rd., Webster, NY 14580, EPA I.D.: NYD002211324, \$511,699; Washington CRC, 6800 Industrial Park, Springfield, VA 22151, EPA I.D.: VAD000739904, \$56,060; Atlanta CRC 36077 Fulton Industrial Blvd., Atlanta, GA 30336, EPA I.D.: GAD010103232, \$56,737; Oakbrook CRC, 1808 Swift Drive, Oakbrook, IL 60521, EPA I.D.: ILD074411646, \$56,737; Oakbrook PR&S, 100 Windsor Drive, Oakbrook, IL 60521, EPA I.D.: ILD096786009, \$56,737; Dallas CRC, 630 106th St., Arlington TX 76010, EPA I.D.: TXD000820324, \$56,737; Henrietta Plant, 1350 Jefferson Road, Henrietta, NY 14623, EPA I.D.: NYD041292509, \$10,705).

EROX

2. The owner or operator identified above guarantees, through the corporate guarantee specified in Subpart H of 40 CFR Parts 264 and 265, the closure and/or post-closure care of the following facilities owned or operated by its subsidiaries. The current cost estimates for the closure or post-closure care so guarantee are shown for each facility: None.
3. In States where EPA is not administering the financial requirements of Subpart H of 40 CFR Parts 264 and 265, this owner or operator is demonstrating financial assurance for the closure and/or post-closure care of the following facilities through the use of a test equivalent or substantially equivalent to the financial test specified in Subpart H of 40 CFR Parts 264 and 265. The current closure and/or post-closure cost estimates covered by such a test are shown for each facility: (Irvine CRC, 18691 Jamboree Blvd., Irvine, CA 92715, EPA I.D.: CAD058231598, \$49,052; Oklahoma Manufacturing Plant, 100 N. Mustang Rd., Oklahoma City, OK 73126, EPA I.D.: OKD079986568, \$80,793).
4. The owner or operator identified above is the owner or operates the following hazardous waste management facilities for which financial assurance for the closure or, if a disposal facility, post-closure care, is not demonstrated either to EPA or a State through the financial test or any other financial assurance mechanism specified in Subpart H of 40 CFR Parts 264 and 265 or equivalent or substantially equivalent State mechanisms. The current closure and/or post-closure cost estimates not covered by such financial assurance are shown for each facility: None

This owner or operator is required to file a Form 10K with the Securities and Exchange Commission (SEC) for the latest fiscal year.

The fiscal year of this owner or operator ends on December 31st. The figures for the following items marked with an asterisk are derived from this owner's or operator's independently audited, year-end financial statements for the latest complete fiscal year, December 31, 1982.

Part B. Closure or Post-Closure Care and Liability Coverage

ALTERNATIVE II

1. Sum of current closure and post-closure cost estimates (total of all cost estimates listed above). \$935,257
2. Amount of annual aggregate liability coverage to be demonstrated. \$2 Million

To the Board of Directors
Xerox Corporation:

We have examined the consolidated balance sheet of Xerox Corporation and consolidated subsidiaries as of December 31, 1982, and the related statements of income, common and Class B shares, additional paid-in capital, retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

At your request, we have performed the following additional procedures as regards the attached letter from Xerox Corporation dated July 8, 1983:

- a) We compared item #7, (\$3,724.3 million) to total shareholders' equity (total net worth) included in the consolidated balance sheet as of December 31, 1982 as reported in the Xerox 1982 Annual Report to Shareholders and found them to be in agreement;
- b) We compared item #8, (\$4,193.1 million) to total identifiable assets - United States included in the Geographic Area Data footnote to the consolidated financial statements as of December 31, 1982 as reported in the Xerox 1982 Annual Report to Shareholders and found them to be in agreement; and
- c) We divided total assets in the U.S. of \$4,193.1 million by total assets of \$7,667.7 million (which amount is included in the consolidated balance sheet as of December 31, 1982 as reported in the Xerox 1982 Annual Report to Shareholders). The result of this calculation was less than 90%.

In connection with these procedures, nothing came to our attention that caused us to believe that total shareholders' equity of \$3,724.3 million or total identifiable assets - United States of \$4,193.1 million should be adjusted.

Mr. Melvin Howard
Senior Vice President, Chief Financial Officer
Xerox Corporation
P. O. Box 1600
Stamford, CT 06904

Reference: OKD 07 998 6568 TXD 00 082 0324

Dear Mr. Howard:

Thank you for your recent submittal of the required documentation to show compliance with the Resource Conservation and Recovery Act (RCRA) financial regulations, 40 CFR 265, Subpart H, as amended on April 7, 1982, 47 FR 16032, and April 16, 1982, 47 FR 16544. The Environmental Protection Agency (EPA) Region VI has authorized the States of Arkansas, Louisiana, Oklahoma, and Texas to operate separate RCRA programs in lieu of the EPA program. Appropriate contacts in these states are:

Mr. Don Hensch
Oklahoma State Department of Health
Hazardous Waste Division
P. O. Box 53551
Oklahoma City, Oklahoma 73152

Mr. Robert Brydson
Texas Department of Water Resources
P. O. Box 13087, Capitol Station
Austin, Texas 78711

Therefore, it is necessary for you to provide documentation directly to each of these states to comply with their laws and regulations.

If you have any questions, please call Henry Onsgard at (214) 767-8941 or me at (214) 767-2645.

Sincerely yours,

R. Stan Jorgensen, Chief
Hazardous Materials Branch

Dear Sir:

I am the Senior Vice President, Chief Financial Officer of Xerox Corporation. This letter is in support of the use of the financial test to demonstrate financial responsibility for liability coverage and closure and/or post-closure as specified in Subpart H of 40 CFR Parts 264 and 265.

The owner or operator identified above is the owner or operator of the following facilities for which liability coverage is being demonstrated through the financial test specified in Subpart H of 40 CFR Parts 264 and 265: (Joseph C. Wilson Center for Technology, 800 Phillips Rd., Webster, N.Y. 14580, EPA I.D.: D002211324; Washington CRC, 6800 Industrial Park, Springfield, VA 22151, EPA I.D.: D000739904; Atlanta CRC, 36077 Fulton Industrial Blvd., Atlanta, GA 30336, EPA I.D.: D010103232; Oak Brook CRC, 1808 Swift Drive, Oak Brook, Ill., EPA I.D.: IL D074411646; Oak Brook PR&S, 100 Windsor Drive, Oak Brook, Ill. 60521, EPA I.D.: IL D096786009; Oklahoma Manufacturing Plant, 100 N. Mustang Rd., Oklahoma City, OK 73126, EPA I.D.: D079986568; Dallas CRC, 630 106th St., Arlington, TX 76010, EPA I.D.: D000820324; Irvine CRC, 18691 Jamboree Blvd., Irvine, CA 92715, EPA I.D.: CA D058231598).

1. The owner or operator identified above owns or operates the following facilities for which financial assurance for closure or post-closure care is demonstrated through the financial test specified in Subpart H of 40 CFR Parts 264 and 265. The current closure and/or post-closure cost estimates covered by the test are shown for each facility: (Joseph C. Wilson Center for Technology, 800 Phillips Rd., Webster, N.Y. 14580, EPA I.D.: D002211324, \$478,000; Washington CRC, 6800 Industrial Park, Springfield, VA 22151, EPA I.D.: D000739904, \$53,000; Atlanta CRC, 36077 Fulton Industrial Blvd., Atlanta, GA 30336, EPA I.D.: D010103232, \$53,000; Oak Brook CRC, 1808 Swift Drive, Oak Brook, Ill., EPA I.D.: IL D074411646, \$53,000; Oak Brook PR&S, 100 Windsor Drive, Oak Brook, Ill. 60521, EPA I.D.: IL D096786009, \$53,000; Oklahoma Manufacturing Plant, 100 N. Mustang Rd., Oklahoma City, OK 73126, EPA I.D.: D079986568, \$61,000; Dallas CRC, 630 106th St., Arlington, TX 76010, EPA I.D.: D000820324, \$53,000).

To the Board of Directors
Xerox Corporation:

We have examined the consolidated balance sheet of Xerox Corporation and consolidated subsidiaries as of December 31, 1981, and the related statements of income, common and Class B shares, additional paid-in capital, retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

At your request, we have performed the following additional procedures as regards the attached letter from Xerox Corporation dated October 19, 1982:

- a) We compared item #7, tangible net worth of \$3,727.6 million to total shareholders' equity included in the consolidated balance sheet as of December 31, 1981 as reported in the Xerox 1981 Annual Report to Shareholders and found them to be in agreement;
- b) We compared item #8, total assets in the U.S. of \$4,378.5 million to total identifiable assets - United States included in the Geographic Area Data footnote to the consolidated financial statements as of December 31, 1981 as reported in the Xerox 1981 Annual Report to Shareholders and found them to be in agreement; and
- c) We divided total assets in the U.S. of \$4,378.5 million by total assets of \$7,674.4 million (which amount is included in the consolidated balance sheet as of December 31, 1981 as reported in the Xerox 1981 Annual Report to Shareholders). The result of this calculation was less than 90%.

In connection with these procedures, nothing came to our attention that caused us to believe that total shareholders' equity of \$3,727.6 million or total identifiable assets - United States of \$4,378.5 million should be adjusted.

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

REGION VI
1201 ELM STREET
DALLAS, TEXAS 75270

July 17, 1981

Xerox Corporation-Dallas CRC
Attn: Jess Walrath
Xerox Square Bldg 304
Rochester, NY 14644

EPA ID NUMBER: TXD 00 082 0324
FACILITY LOCATION: 630 106th Street
Arlington, Texas

This is to acknowledge that the Environmental Protection Agency has completed processing the information submitted in your Part A Hazardous Waste Permit Application. It is the Agency's opinion, based on the assumption that the information submitted is complete and accurate, you as an owner or operator of a hazardous waste management facility have met the requirements of Section 3005(e) of the Resource Conservation and Recovery Act (RCRA) for Interim Status. EPA has not verified the information submitted. If it is determined that the information is incomplete or inaccurate, you may be asked to provide additional information or in certain circumstances it may be determined that you do not qualify for interim status. In addition, this notice does not preclude a citizen from taking legal action under the provisions of Section 7002 of RCRA.

A facility not meeting the requirements for interim status under Section 3005 of RCRA may be required to close until such time as a hazardous waste permit is issued. Interim status may also be terminated, according to procedures in 40 CFR Part 124, if the owner or operator fails to furnish additional information which EPA requests in order to process a permit application.

As an owner or operator of a hazardous waste management facility, you are required to comply with the interim status standards as prescribed in 40 CFR Parts 122 and 265 or with State rules and regulations in those States which have been authorized under Section 3006 of RCRA. In addition, you are reminded that operating under interim status does not relieve you from the need to comply with all applicable State and local requirements.

The enclosure to this letter identifies the processes your facility may use, their design capacities and the types of waste your facility may accept during interim status. This information was obtained from the Part A Permit Application. If you wish to handle new wastes, change processes, increase the design capacity of existing processes, or change ownership or operational control of the facility, you may do so only as provided in 40 CFR Sections 122.22 and 122.23.

If you have any questions concerning this letter, please contact Dwight Corley at (214) 767-2765, or write Mail Code 6E-P, 1201 Elm Street, Dallas, Texas 75270.

Sincerely,

A handwritten signature in dark ink, appearing to read "Diana Dutton", is written over a horizontal line.

Diana Dutton, Director
Enforcement Division (6E)

cc: Texas Department of Water Resources

CONDITIONS OF OPERATION DURING
INTERIM STATUS

Date prepared: July 17, 1981

The information shown below is based solely on the information that the owner and operator of this facility submitted in Part A of the Hazardous Waste Permit Application. This is not a determination by EPA that this facility is an environmentally acceptable facility for treating, storing or disposing of the hazardous wastes listed below.

I. Facility name, location and EPA identification number:

Name: Xerox Corporation-Dallas CRC
Location: 630 106th Street
Arlington, Texas
EPA ID No: TXD 00 082 0324

II. EPA considers the following to be the owner or operator of the facility and therefore the person(s) who must comply with the requirements set forth in 40 CFR Parts 122 and 265:

Owner's name: Xerox Corporation
Operator's name: Xerox Corporation

III. During the period of interim status, the facility may use only the following processes for treating, storing or disposing of hazardous waste, up to the design capacities that are indicated:

<u>Process Code</u>	<u>Design Capacity Amount</u>	<u>Unit of Measure</u>
<u>S02</u>	<u>8,000.</u>	<u>Gallons</u>
<u> </u>	<u> </u>	<u> </u>
<u> </u>	<u> </u>	<u> </u>
<u> </u>	<u> </u>	<u> </u>
<u> </u>	<u> </u>	<u> </u>
<u> </u>	<u> </u>	<u> </u>

IV. During the period of interim status, the facility may handle only the hazardous wastes with the following EPA Hazardous Waste Numbers, and/or solid wastes exhibiting hazardous characteristics with the following EPA Hazardous Waste Numbers:

<u>F002</u>	<u>F001</u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>
<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>
<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>
<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>

U.S. ENVIRONMENTAL PROTECTION AGENCY
NOTIFICATION OF HAZARDOUS WASTE ACTIVITY

INSTRUCTIONS: If you received a preprinted label, affix it in the space at left. If any of the information on the label is incorrect, draw a line through it and supply the correct information in the appropriate section below. If the label is complete and correct, leave Items I, II, and III below blank. If you did not receive a preprinted label, complete all items. "Installation" means a single site where hazardous waste is generated, treated, stored and/or disposed of, or a transporter's principal place of business. Please refer to the INSTRUCTIONS FOR FILING NOTIFICATION before completing this form. The information requested herein is required by law (Section 3010 of the Resource Conservation and Recovery Act).

NOTIFICATION OF HAZARDOUS WASTE ACTIVITY

INSTRUCTIONS: If you received a preprinted label, affix it in the space at left. If any of the information on the label is incorrect, draw a line through it and supply the correct information in the appropriate section below. If the label is complete and correct, leave Items I, II, and III below blank. If you did not receive a preprinted label, complete all items. "Installation" means a single site where hazardous waste is generated, treated, stored and/or disposed of, or a transporter's principal place of business. Please refer to the INSTRUCTIONS FOR FILING NOTIFICATION before completing this form. The information requested herein is required by law (Section 3010 of the Resource Conservation and Recovery Act).

PLEASE PLACE LABEL IN THIS SPACE

FOR OFFICIAL USE ONLY

FORM 1 GENERAL		U.S. ENVIRONMENTAL PROTECTION AGENCY GENERAL INFORMATION <i>Consolidated Permits Program</i> <i>(Read the "General Instructions" before starting.)</i>	EPA I.D. NUMBER <div style="border: 1px solid black; padding: 2px; display: inline-block;"> F T X D 0 0 0 8 2 0 3 2 4 3 D </div>
LABEL ITEMS <div style="border: 1px solid black; padding: 5px; margin-bottom: 5px;"> I. EPA I.D. NUMBER </div> <div style="border: 1px solid black; padding: 5px; margin-bottom: 5px;"> III. FACILITY NAME </div> <div style="border: 1px solid black; padding: 5px; margin-bottom: 5px;"> V. FACILITY MAILING ADDRESS </div> <div style="border: 1px solid black; padding: 5px;"> VI. FACILITY LOCATION </div>		PLEASE PLACE LABEL IN THIS SPACE	
		GENERAL INSTRUCTIONS If a preprinted label has been provided, affix it in the designated space. Review the information carefully; if any of it is incorrect, cross through it and enter the correct data in the appropriate fill-in area below. Also, if any of the preprinted data is absent (the area to the left of the label space lists the information that should appear), please provide it in the proper fill-in area(s) below. If the label is complete and correct, you need not complete items I, III, V, and VI (except VI-B which must be completed regardless). Complete all items if no label has been provided. Refer to the instructions for detailed item descriptions and for the legal authorizations under which this data is collected.	

II. POLLUTANT CHARACTERISTICS

INSTRUCTIONS: Complete A through J to determine whether you need to submit any permit application forms to the EPA. If you answer "yes" to any questions, you must submit this form and the supplemental form listed in the parenthesis following the question. Mark "X" in the box in the third column if the supplemental form is attached. If you answer "no" to each question, you need not submit any of these forms. You may answer "no" if your activity is excluded from permit requirements; see Section C of the instructions. See also, Section D of the instructions for definitions of bold-faced terms.

SPECIFIC QUESTIONS	MARK 'X'			SPECIFIC QUESTIONS	MARK 'X'		
	YES	NO	FORM ATTACHED		YES	NO	FORM ATTACHED
A. Is this facility a publicly owned treatment works which results in a discharge to waters of the U.S.? (FORM 2A)		X		B. Does or will this facility (either existing or proposed) include a concentrated animal feeding operation or aquatic animal production facility which results in a discharge to waters of the U.S.? (FORM 2B)		X	
C. Is this a facility which currently results in discharges to waters of the U.S. other than those described in A or B above? (FORM 2C)		X		D. Is this a proposed facility (other than those described in A or B above) which will result in a discharge to waters of the U.S.? (FORM 2D)		X	
E. Does or will this facility treat, store, or dispose of hazardous wastes? (FORM 3)	X		X	F. Do you or will you inject at this facility industrial or municipal effluent below the lowermost stratum containing, within one quarter mile of the well bore, underground sources of drinking water? (FORM 4)		X	
G. Do you or will you inject at this facility any produced water or other fluids which are brought to the surface in connection with conventional oil or natural gas production, inject fluids used for enhanced recovery of oil or natural gas, or inject fluids for storage of liquid hydrocarbons? (FORM 4)		X		H. Do you or will you inject at this facility fluids for special processes such as mining of sulfur by the Frasch process, solution mining of minerals, in situ combustion of fossil fuel, or recovery of geothermal energy? (FORM 4)		X	
I. Is this facility a proposed stationary source which is one of the 28 industrial categories listed in the instructions and which will potentially emit 100 tons per year of any air pollutant regulated under the Clean Air Act and may affect or be located in an attainment area? (FORM 5)		X		J. Is this facility a proposed stationary source which is NOT one of the 28 industrial categories listed in the instructions and which will potentially emit 250 tons per year of any air pollutant regulated under the Clean Air Act and may affect or be located in an attainment area? (FORM 5)		X

XI. MAP

Attach to this application a topographic map of the area extending to at least one mile beyond property boundaries. The map must show the outline of the facility, the location of each of its existing and proposed intake and discharge structures, each of its hazardous waste treatment, storage, or disposal facilities, and each well where it injects fluids underground. Include all springs, rivers and other surface water bodies in the map area. See instructions for precise requirements.

F9: A/50

XII. NATURE OF BUSINESS (provide a brief description)

Refurbish, Recondition, and Remanufacture of Electrostatic copying machines.

F9: A/51

XIII. CERTIFICATION (see instructions)

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this application and all attachments and that, based on my inquiry of those persons immediately responsible for obtaining the information contained in the application, I believe that the information is true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.

III. PROCESSES (continued)

C. SPACE FOR ADDITIONAL PROCESS CODES OR FOR DESCRIBING OTHER PROCESSES (code "T04"). FOR EACH PROCESS ENTERED HERE INCLUDE DESIGN CAPACITY.

N/A

IV. DESCRIPTION OF HAZARDOUS WASTES

A. **EPA HAZARDOUS WASTE NUMBER** — Enter the four-digit number from 40 CFR, Subpart D for each listed hazardous waste you will handle. If you handle hazardous wastes which are not listed in 40 CFR, Subpart D, enter the four-digit number(s) from 40 CFR, Subpart C that describes the characteristics and/or the toxic contaminants of those hazardous wastes.

B. **ESTIMATED ANNUAL QUANTITY** — For each listed waste entered in column A estimate the quantity of that waste that will be handled on an annual basis. For each characteristic or toxic contaminant entered in column A estimate the total annual quantity of all the non-listed waste(s) that will be handled which possess that characteristic or contaminant.

C. **UNIT OF MEASURE** — For each quantity entered in column B enter the unit of measure code. Units of measure which must be used and the appropriate codes are:

ENGLISH UNIT OF MEASURE CODE
POUNDS P
TONS T

METRIC UNIT OF MEASURE CODE
KILOGRAMS K
METRIC TONS M

If facility records use any other unit of measure for quantity, the units of measure must be converted into one of the required units of measure taking into account the appropriate density or specific gravity of the waste.

D. PROCESSES**1. PROCESS CODES:**

For listed hazardous waste: For each listed hazardous waste entered in column A select the code(s) from the list of process codes contained in Item III to indicate how the waste will be stored, treated, and/or disposed of at the facility.

For non-listed hazardous wastes: For each characteristic or toxic contaminant entered in column A, select the code(s) from the list of process codes contained in Item III to indicate all the processes that will be used to store, treat, and/or dispose of all the non-listed hazardous wastes that possess that characteristic or toxic contaminant.

Note: Four spaces are provided for entering process codes. If more are needed: (1) Enter the first three as described above; (2) Enter "000" in the extreme right box of Item IV-D(1); and (3) Enter in the space provided on page 4, the line number and the additional code(s).

2. PROCESS DESCRIPTION: If a code is not listed for a process that will be used, describe the process in the space provided on the form.

NOTE: HAZARDOUS WASTES DESCRIBED BY MORE THAN ONE EPA HAZARDOUS WASTE NUMBER — Hazardous wastes that can be described by more than one EPA Hazardous Waste Number shall be described on the form as follows:

1. Select one of the EPA Hazardous Waste Numbers and enter it in column A. On the same line complete columns B, C, and D by estimating the total annual quantity of the waste and describing all the processes to be used to treat, store, and/or dispose of the waste.
2. In column A of the next line enter the other EPA Hazardous Waste Number that can be used to describe the waste. In column D(2) on that line enter "included with above" and make no other entries on that line.
3. Repeat step 2 for each other EPA Hazardous Waste Number that can be used to describe the hazardous waste.

EXAMPLE FOR COMPLETING ITEM IV (shown in line numbers X-1, X-2, X-3, and X-4 below) — A facility will treat and dispose of an estimated 900 pounds per year of chrome shavings from leather tanning and finishing operation. In addition, the facility will treat and dispose of three non-listed wastes. Two wastes are corrosive only and there will be an estimated 200 pounds per year of each waste. The other waste is corrosive and ignitable and there will be an estimated 100 pounds per year of that waste. Treatment will be in an incinerator and disposal will be in a landfill.

LINE NO.	A. EPA HAZ. WASTE NO. (enter code)	B. ESTIMATED ANNUAL QUANTITY OF WASTE	C. UNIT OF MEASURE (enter code)	D. PROCESSES	
				1. PROCESS CODES (enter)	2. PROCESS DESCRIPTION (if a code is not entered in D(1))
X-1	K 0 5 4	900	P	T 0 3 D 8 0	
X-2	D 0 0 2	400	P	T 0 3 D 8 0	
X-3	D 0 0 1	100	P	T 0 3 D 8 0	
X-4	D 0 0 2				included with above

Continued from page 2.

NOTE: Photocopy this page before completing if you have more than 26 wastes to list.

Xerox Corporation - Dallas CRC

Dear Mr. Corley:

Attached is Form 1 sent to us by Mr. Fred B. Woods.
Please note that we have completed the missing in-
formation under Item VIII. We apologize for any
inconvenience.

Very truly yours,

Robert R. Bouley, P.E.
Manager, Environmental Engineering

Dear Sir:

The Environmental Protection Agency (EPA) has received your filing of the Part A Permit Application, as required by the Resource Conservation and Recovery Act (RCRA). Review of the application reveals that some of the information provided is either incomplete or illegible in those sections of the filing indicated:

()	Facility Name	Form 1, Item III
()	Facility Location	Form 1, Item VI
()	Facility Mailing Address	Form 1, Item V
(X)	Operator Information	Form 1, Item VIII
()	Certification	Form 1, Item XIII
		Form 3, Item IX and/or X
()	Process Information	Form 3, Item III
()	Waste Information	Form 3, Item IV
()	Owner Information	Form 3, Item VIII
()	Maps	
()	Photographs	
()	Drawings	
()	Latitude and Longitude	

Please complete the items marked, then return the forms to:

Mr. Dwight Corley
EPA - 6AEP
1201 Elm Street
Dallas, TX 75270

Should you have any questions, please contact Mr. Corley at 214/767-2765.

Sincerely,

Fred B. Woods, Chief
Administrative Branch 6AEP

X. Description of Hazardous Wastes (continued from front)

A. Hazardous Wastes from Nonspecific Sources. Enter the four-digit number from 40 CFR Part 261.31 for each listed hazardous waste from nonspecific sources your installation handles. Use additional sheets if necessary.

1 F 0 0 3	2 F 0 0 5	3 F 0 0 1	4	5	6
7	8	9	10	11	12

B. Hazardous Wastes from Specific Sources. Enter the four-digit number from 40 CFR Part 261.32 for each listed hazardous waste from specific sources your installation handles. Use additional sheets if necessary.

13	14	15	16	17	18
19	20	21	22	23	24
25	26	27	28	29	30

C. Commercial Chemical Product Hazardous Wastes. Enter the four-digit number from 40 CFR Part 261.33 for each chemical substance your installation handles which may be a hazardous waste. Use additional sheets if necessary.

31	32	33	34	35	36
37	38	39	40	41	42
43	44	45	46	47	48

D. Listed Infectious Wastes. Enter the four-digit number from 40 CFR Part 261.34 for each hazardous waste from hospitals, veterinary hospitals, or medical and research laboratories your installation handles. Use additional sheets if necessary.

49	50	51	52	53	54
----	----	----	----	----	----

E. Characteristics of Nonlisted Hazardous Wastes. Mark 'X' in the boxes corresponding to the characteristics of nonlisted hazardous wastes your installation handles. (See 40 CFR Parts 261.21 — 261.24)

☐ 1. Ignitable
(D001)

☐ 2. Corrosive
(D002)

☐ 3. Reactive
(D003)

☐ 4. Toxic
(D000)

XI. Certification

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this and all attached documents, and that based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the submitted information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.
